BYTEBAR

Your ByteBar Complete

ACCESS GUIDE

Good news — your account is already set up.

Checkout created your ByteBar account with ByteBar Complete already on it — the Library and the Simulator, both unlocked. No codes to type, nothing to install — just sign in.

1. **Check your email**

   Look for an email from ByteBar sent to the address you used at checkout — it carries your sign-in link. (Not there? Peek in spam or promotions.)

2. **Tap the sign-in link**

   One tap and you're in — all 29 exams in the Simulator and every video book in the Library unlocked, plus your badges, streaks, and progress saved to your account.

3. **Bookmark your two doors**

   The Library: bytebarhq.com/library · The Simulator: sim.bytebarhq.com/sim-preview/ — sign in anytime, on any device, with the same email and we'll send you a fresh link.

No email? Sign in with your checkout email.

There's no code to lose — access lives on your account. Go to bytebarhq.com or open the Simulator, tap Sign in, and enter the email you used at checkout. We'll email you a fresh sign-in link, and everything you own is right there.

Your receipt and your account

Your checkout receipt email is your proof of purchase. Your ByteBar account is where your books, exams, and progress live. Same email for both keeps everything connected.

Good to know

- Sign-in links expire after an hour — if yours does, just request a new one from any Sign in button.
- ByteBar Complete works on every device you sign in on — phone, tablet, and desktop.
- Questions? Email bytebarco@proton.me and we'll sort it out.

One payment of $9.99. Yours forever — no subscription, no renewals.
